What Will We Do Without America...?

America needs a **real** reality check. Without it, our destiny may be certain...

No matter what side you are on, no matter what philosophy you embrace – *never* has there been such hope and despair at the same time! We are a divided house! Do we still have time to choose which America wins? At this juncture, our fate can go either way- a house divided that falls - or a nation restored to values that have worked 240 years.

However.

Any writer's objective is to uplift and encourage readers. But how does one address hopelessness, fear & hostility as now exists in society... *and remain positive?* These are radical times. Especially when truth is the new hate-speech? Does it call for a radical response? No. We speak the truth just like Jesus did...truth-lovers **will** hear.

'**Choices**' have brought us all where America finds itself. And lots of Americans seem to be making the wrong ones

Muslim Iman in the U.S. said this week, "In 2 years we will prevail & Christians will be our slaves."

"I prefer dangerous freedom over peaceful slavery."

- siding with malice, disloyalty & violence –driven by lust for power and greed that defy virtues founders established.

How did we become so split, with two Americas, anyhow...? Many ways. But here's my overview... at least a big picture.

In Tampa in 2012, the DNC Convention openly voted God out of its platform. Some people there even booed at the mention of God. They already supported gay marriage & murder of the unborn- but since then, they degenerated into violence.

By default, this only left the Republican party as the only hope for returning America to time-honored values of life, liberty, valor and strength

Problem. Well-meaning Republicans, not wanting to "offend" or be accused of racism, then allowed the democrats to frame every issue - in the media, and in congress too. This passivity left them only reactionary. Their lack of leadership left them stone-walled, defensive and mostly bowing out!

But it gets worse. The general public took their cues from reticent leaders who didn't want to "offend." Even the church took up this conduct adopting a "sloppy" message of God's love, defying His holiness & the discipleship of God!

Fox's Jesse Watters and late night hosts often do 'the man on the street' interviews revealing the fact un-inquiring minds only know what the 'lame stream media' feeds them. Or, voices (Hollywood) who're quoted as saying they hate America, or want to blow up the White House! Pitifully ...these are the voices who have the ear of the general public - especially youth - in America today!

I despair at the ignorance of the general public demanding answers-Russia's hacking our election, or they march in events clueless to **what event IS**. Empty suits, 70% who can't name one of the 3 players in WWII - Hitler, Roosevelt or Churchill & think *that war was with Russia...!* *

These interviews often occur on college campuses - falsely called 'higher learning' -but costly repositories for communists & anarchy today.

Do you marvel at how often the word **fight** has been in the news lately? Senator Tim Kaine (D-Va who ran for Dem VP), during election season, called for 'fighting in the streets' against Trump. Bernie Sanders also used the same phrase... along with Nancy Pelosi and others! Five elections last week prove their only platform is *Hate Trump!* They LOST...

Such volatile rhetoric will act itself out sooner or later, and **did** this week, thru a Sanders supporter in a shooting where 56 rounds were fired, (he was a poor shot!) injuring 5 people at a baseball game. Critically injured was a top Republican.

That very day, intimidating threats were sent to Congress saying "one down, 260 to go." Townhall events have shut down due to rabble-rousers paid by George Soros...This violence and intimidation is *the devil's most effective tool in life*.

The light of hope at the end of the tunnel has become so shrouded by fear and hostility, it is now dimmed. Our future is fragile! Will good triumph over evil in America? It remains to be seen...!

Adversaries against the things YOU love- Law & Order, Freedom, Peace are fully engaged in the fight.

You need to join the WAR!

Your daily routine is now interrupted! You may not be... but politics is interested in YOU! You. Must. Fight. Now! If we do not act now and rise to – our "place" – in His calling, then your children will pay the cost! *Don't be someone who has absolutely no effect on anything!*

Natural disasters loom, but man-made disasters also cast a broad shadow as well... Such as millions of salmon washed up on the West Coast recently, dead from radiation of Japan's tsunami. *Scientists know when animals die, the people are dying.* North Korea threatens a nuclear war...yet **not one nation deters him!**

But there's another scenario you may never have considered. .. our power grid – there are four nationwide, very aged, and currently graded a D+ by authorities. Ted Koppel **warns** about it! (See YouTube) Dick Morris says the Chinese have now hacked these grids...3 days without power, and store shelves will be empty of groceries. Rioting will begin – and **perhaps civil war...**

I only mention here the romance we have with Islam. Speaking as one who has actually lived with a Muslim-& read the Quran... *it's insanity!*

These are precarious times... Yet scripture says the role of gov't is to maintain 'peace' in society.¹ Want to keep peace? Stop being passive! So, here's where I say, Rise up? No. You'd better *kneel...*

It's America's only hope.

To say you are a believer but do not pray is like saying, I like life but I don't breathe-It is *death*. Listen to GOD! 2

Lord, cleanse me of anything that breaks your heart...

Be yourself. Nobody can say you're doing it wrong!

I love to tell people how our God is a Rescuer! In business, I was often out of my element and fell into a legal snafu before I knew it over 18 years!

But no matter. God always rescued me. Even when it was my own fault!

I knew God was a Rescuer, but not until this past Sunday message at church did I know that scripture actually says so!

Jeremiah has always been one of my favorite books in the Bible – it's his humanness that appeals to me. He cursed the day he was born and even the one who announced his birth, yet said "But His word was in my heart as a burning fire shut up in my bones..."

He was called as a young man and said so. But God said "Don't say "I am only a youth...." 3

God then said He was sending him to the nations, and that enemies would fight against him, but they would not prevail - for God would *rescue* him!⁴

It is a marvelous thing to know we have a Rescuer.⁵

Did you know the Apostle Paul was an encourager? That he said, "if there be any encouragement..." and also "therefore encourage one another & build each other up." He appreciated the value of words. We should too.

I can tell you five words that therapists & counselors all know. They're beneficial to marriages and life in general. They're "Let it begin with me." If you want to fix anything, take a leading role by saying those five words. We need to use encouragement as a tool.

If we wanna fix our nation then we must take the lead. Start where you *are*...

You don't need a platform or a website to do so – look around you to see where you can speak encouragement, to summon people to be their best. No one's perfect. We're all broken. We all need Jesus

God isn't looking for talent. He's looking for tools. People who are surrendered to His Holy Spirit's guidance. Check out Romans 8th chapter and John 14-16 to learn the role He plays in *helping* us.

Realize these 5 words "Let it begin with me" takes humility. Service to God requires humility as well. If you would be great, Jesus beckons, *then serve!* Start out with encouragement –

I know a lot of people in heaven...I often picture them hanging over heaven's balcony cheering me on! A literal *fan club*. Your friends & family need fans, not critics - they already have *those*.

Dear Agatha: I would appreciate it if you can speak to the matter of just what can ordinary Americans do – given the atmosphere we live in. I'm a man and I'm always busy – but my wife and I want to do SOMETHING to make a difference in our world. If we just knew 'what' we would do it! Please address this. **AI.**

Dear AI: I really believe you represent most people AI, in your question today. Truth is, there are a lot of things we can do-except almost nobody does them! Why? It's the human condition – people are 'busy' & preoccupied with life and living... Making a living, shopping, meals, soccer and dance lessons... Then apathy sets in when the issues of life get placed on the back burner

It's not they aren't important – they're just not a priority TODAY! And politics often take a low priority anyway.

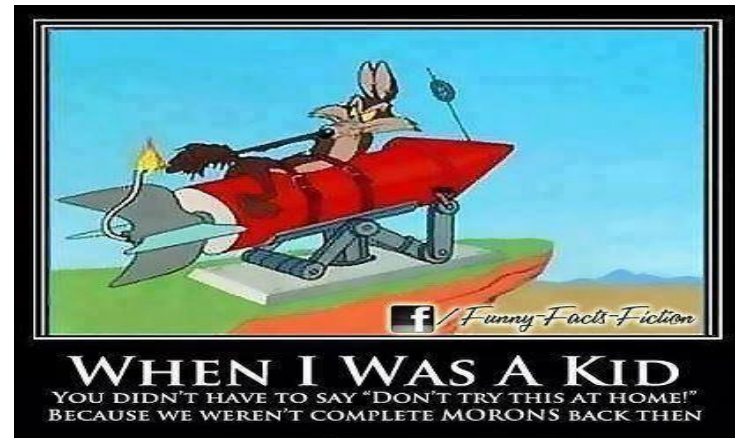

Why even take action? Well someone needs to lift a standard – to hold back the encroaching darkness-or it will prevail! 'light' is needed where dark lifts its ugly head. So illumination is needed.

We can all learn to pray! That's the beginning. Don't have unconfessed Sin in your life: Forgive. Be merciful. However, **real** prayer means you put feet to your faith!

Then, acknowledge the fact - *you can't do it!* (be poor in spirit). That God must energize, direct and give you wisdom. If you ask, He will give you abundant wisdom in what He wants You to do! 6

Here's what no one does –Call- Write. Deluge D.C. representatives!, Or, Local TV stations, radio & newspapers! Form house meetings – make them brief, one hour a week. TALK about issues affecting your family! **Talk to one another!** Form house prayer meetings. Inform. Educate. Pray...If you ask, He will guide you in abundant wisdom in what He wants YOU to do!

If we don't act now, how will we answer when our children ask what we did when America fell...? The whole world is watching America, to see this grass roots movement rise to respond to the violence they observe coming now.
